## ⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, and this may occur while they are watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch their children play video games. Stop playing and consult a doctor if you or your child has any of the following symptoms:

| | | |
|---|---|---|
| Convulsions | Eye or muscle twitching | Altered vision |
| Loss of awareness | Involuntary movements | Disorientation |

- To reduce the likelihood of a seizure when playing video games:
  1. Sit or stand as far from the screen as possible.
  2. Play video games on the smallest available television screen.
  3. Do not play if you are tired or need sleep.
  4. Play in a well-lit room.
  5. Take a 10 to 15 minute break every hour.

## ⚠ WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. Parents should monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists, arms or eyes become tired or sore while playing, or if you feel symptoms such as tingling, numbness, burning or stiffness, stop and rest for several hours before playing again.
- If you continue to have any of the above symptoms or other discomfort during or after play, stop playing and see a doctor.

# FLIGHT SCHOOL

Conquer your fear of heights and take to the skies for a daring mid-air adventure that will test your pilot skills and your sense of humor. After a few flight lessons with Skipper, throttle forward over the world of Cars, just like in Disney's hit movie *Planes*. Fly solo or with a wingman to complete flight objectives or challenge each other to an Air Rally race or a Balloon Pop challenge. And if you just want to stretch your wings, get airborne with a leisurely Free Flight. Just don't look down!

## BASIC FLIGHT

Flying is easy in *Disney Planes*. Where the nose goes, your plane will follow! Pitch your nose up to fly higher into the sky and down to fly closer to the ground. Point it left to bank left and right to bank right. That's it!

Your plane cruises at a safe, efficient speed, but if you want to win the race, you have to push it. Press and hold Boost to go faster.

And if you need to make a tight turn, hit the Brakes to slow down.

Remember that hitting solid objects will damage your plane's engine and slow your speed. So, fly safe!

## ADVANCED FLIGHT

Now let's push the envelope and get to the tricks.

**180° Turn Around**

This move starts out like a loop, but ends halfway at the top, with the nose pointed the way you came from.

**360° Loop**

Doing a 360 is like a lap around the racetrack; you go a long way to end up right where you started!

**Barrel Rolls**

Barrel Roll left or right to make quick in-flight course changes to dodge obstacles or clear an Air Rallies race ring.

**⚠ CAUTION: WRIST STRAP USE**

Please use the wrist strap to help prevent injury to other people or damage to surrounding objects or the Wii Remote in case you accidentally let go of the Wii Remote during game play.

Also remember the following:

- Make sure all players put on the wrist strap properly when it is their turn.
- Do not let go of the Wii Remote during game play.
- Dry your hands if they become moist.
- Allow adequate room around you during game play and make sure that all areas you might move into are clear of other people and objects.
- Stay at least three feet from the television.
- Use the Wii Remote Jacket

## STORY MODE

Play as your favorite Disney Planes characters as they take part in their adventures after Dusty's first Wings Around the Globe Race.

## FREE FLIGHT

Explore levels at your own pace, practice your skills, or look for Landmark Puzzle Pieces. The Propwash Junction level is open from the start. Improve your Wing Rank to open more airspace.

## AIR RALLIES

Race against the clock in a time trial or race against up to five other planes around a sepecial air race course. Miss a gate and you'll fall behind! Sometimes precise flying is better than fast flying.

## BALLOON POP

In this test of flying precision and steely nerve, you'll race to pop as many balloons as you can in the shortest amount of time. Red balloons are worth the most points.

## MULTIPLAYER

Fly with a friend to complete Story Mode missions and explore levels together in Free Flight. Or challenge a friend to an Air Rallies race or a Balloon Pop challenge.

During Story Mode and Free Flight, press the **+ Button** with a connected Wii Remote at any time to Drop-In. Drop-Out of the game at any time by pressing the **– Button**.

During Air Rallies, be sure to select the two player option before beginning the race. No dropping into a race after it has already started. That would be cheating!

## COLLECTIBLES

Find these collectibles throughout the game. Some will be out in the open, some will be a little difficult to find, and some are hidden inside other objects. Fly into them while Boosting to bust them out.

**Wing Points**
Find and collect Wing Points to increase your score and improve your Wing Rank. Go for Platinum Wings!

**Speed Upgrades (Speed Meters)**
Collect Speed Upgrades to increase your overall speed. The more you collect, the faster you will go!

**Landmark Puzzle Pieces**
Each Free Flight map has ten Landmark Puzzle Pieces. Find and collect them to unlock and create Landmark Postcards.
